Part #FIR

## ***Buy with Confidence !***

### **Made in the U.S.A.**

All of our harnesses are hand assembled in the U.S.A.

### **Correct Color Wires**

Our harnesses always match the original factory color codes and gauge sizes. We use U.S.A. made Cross Linked Polyethylene type GXL wire which is much more tolerant to heat than the original PVC type GPT wire that was used from the factory.

### **Dip Soldered (when applicable)**

All terminals are dip soldered (when applicable) to limit resistance loss.

### **Correct Connectors & Terminals**

With over 300,000 connectors and terminals in stock you can be sure the harness you receive will look identical to the original.

### **Correct Non-Adhesive & Cloth Tapes**

All harnesses are wrapped with the correct non-adhesive or cloth woven tapes to assure a 100% factory appearance.

### **Technical Support**

We don't expect our customers to be "wiring-wizards", you can call us direct with any technical questions you may have.

### **Custom Modifications**

Custom modifications are available to allow you to convert from an external regulated alternator to an internal regulated alternator. This modification is available for most '63 and up GM cars and trucks. We can also convert many of our engine harnesses to work with H.E.I. distributors and electric chokes. Our modifications retain the factory appearance. Call our Customer Service Department for more details.

### **Reproduction Switches**

We manufacture an extensive line of reproduction switches. These include Turn Signal, Backup Light, Neutral Safety, Wiper, Headlight Switches and others. As with all of our restoration products our switches will fit and function perfectly, just like the originals.

### **Guarantee & Warranty**

We are so confident in the quality of all of our restoration products that we offer the following guarantee and warranty. If you are not 100% satisfied with the quality of any of our restoration products we will give you a full refund. Just return the unused item within 30 days of receipt for a full refund. We also offer a full 1 year replacement warranty on all of the products we sell (see our product warranty sheet for more info).

### **Method of Payment**

We accept Visa, Master Card, American Express and Discover. If you prefer to pre-pay your order, we accept Money Orders, Cashiers Checks or Personal Checks. C.O.D. shipments are also available.

### **LIGHTING KITS**

### **1 WIRE IGNITION**

### **HARNESS TAPE**

***"M&H Harnesses are perfect reproductions created with correct color wires from Original GM wiring schematics".***

# Alternator Conversion Kits

**See car line catalogs  
for specific applications**

## **Alternator Conversion Kit External to "SI" Type Internal**

Our most popular Alternator Conversion Kit. This kit makes it easy to convert from an External Regulated Alternator to an "SI" Type Internal Regulated Alternator. Kit includes both adapters and an instruction sheet.

Easy to install:

1) Disconnect the external voltage regulator leads and plug our "Special Regulator Adapter" into the voltage regulator lead wires. 2) Disconnect the alternator lead wires. 3) Install new "SI" Type Internal Regulated alternator. 4) Plug one end of our "Alternator Adapter" into the original alternator lead wires and the other into the alternator.

*Typical application is '63-'74 GM Cars & Trucks, see carline catalogs for specific application information.*

Part #27555

Retail \$34.00

## **Alternator Conversion Kit External to "CS" Type Internal**

This kit makes it easy to convert from an External Regulated Alternator to a "CS" Type Internal Regulated Alternator. Kit includes both adapters and an instruction sheet.

Easy to install:

1) Disconnect the external voltage regulator leads and plug our "Special Regulator Adapter" into the voltage regulator lead wires. 2) Disconnect the alternator lead wires. 3) Install new "SI" Type Internal Regulated alternator. 4) Plug one end of our "Alternator Adapter" into the original alternator lead wires and the other into the alternator.

*Typical application is '63-'74 GM Cars & Trucks, see carline catalogs for specific application information.*

Part #37787

Retail \$35.00

## **Alternator Conversion Kit "SI" Type Internal to CS130/CS144 Type Internal**

Allows for an easy conversion from an "SI" type internal regulated alternator to a "CS130" or "CS144" type internal regulated alternator. Simple to install, the mating end of the adapter pigtail plugs perfectly to the original alternator connector, and the other end plugs right into any "CS130" or "CS144" type alternator. Kit includes adapter pigtail and an instruction sheet.

*Typical application is '69-'84 GM Cars & Trucks, see carline catalogs for specific application information.*

Part #37796

Retail \$26.00

# Alternator Conversion Kits

**See car line catalogs  
for specific applications**

## **Alternator Conversion Kit**

### **"SI" Type Internal to "CS130D" Type Internal**

Allows for an easy conversion from an "SI" type internal regulated alternator to a "CS130D" type internal regulated alternator. Simple to install, the mating end of the adapter pigtail plugs perfectly to the original alternator connector, and the other end plugs right into any "CS130D" type alternator. Kit includes adapter pigtail and an instruction sheet.

Typical application is '69-'84 GM Cars & Trucks, see carline catalogs for specific application information.

Part #39472

Retail \$27.00

## **Alternator Identification**

**1963-1974  
External Regulated Alternator**

**1969-1984 "SI" Type  
Internal Regulated Alternator**

**1984-1999 "CS130" & "CS144" Type  
Internal Regulated Alternator**

**1994-Newer "CS130D" Type  
Internal Regulated Alternator**

# **Breakerless SE Single Wire Ignition**

***Simple 1 Wire Hook-Up, just connect the original points wire to the module***

***Completely stock appearance***

***Emissions Legal in all 50 States***

***Three year warranty***

The Breakerless SE allows you to convert any 1957 to 1974 GM, AMC or Jeep V8 breaker point type distributor (with a windowed type distributor cap) to a reliable solid-state electronic ignition, utilizing a fully integrated trigger and power module that fits completely inside the distributor. Unlike competitive systems though, no additional wires protrude from the distributor, only the original points wire. The result is a state-of-the-art ignition with an absolutely stock appearance. The Breakerless SE is so unique that it's patented !

## **Outstanding features of this unit include:**

- Single wire operation to preserve stock appearance and simplify wiring.
- Active dwell control maintains high rpm spark energy while reducing coil heating at idle.
- Auto-standby prevents coil damage or dead battery if the ignition is accidentally left on.
- Hall effect rotary-vane sensor design compensates for worn bearings and distributor end play. Magnetic sensor is unaffected by oil, dirt or other contaminants, unlike optical systems.
- Over-voltage/over-current protected against damage from high amp battery chargers, reversed battery, or improper wiring.
- Constructed with premium quality components. Sealed, hi-temp thermoplastic housing provides exceptional resistance against moisture and vibration.
- No distributor modification, disassembly, or removal is required.

Kit comes complete with everything you'll need to install the Breakerless SE Single Wire Ignition. Kit includes: 1 Module, 1 (two-piece) vane, all necessary installation hardware and a comprehensive instruction sheet.

**Part #38131**  
**Retail \$189.00**
